«*Never give up*»

AIKIDO INTERNATIONAL BOOTCAMP

INTRODUCTION

We all like Philippe's teaching, and we exactly know why.

We like these intense and generous times where we all give the best of ourselves.

- During the Easter weekend 2022, a wonderful Aikido event will take place in Annecy.
- 12 teachers from all over Europe will meet together with one common dream, to share with us a 3-day seminar of fun, sweat and generous aikido practice.
- These teachers have in common to follow or to have followed the teaching of the same teacher, Philippe Gouttard.

HOW – ACCOMODATION

- To facilitate the accommodation, and to allow the participants to meet in the same place, I recommend to book at the following apart-hotel:
 - [Privilodge Apparthotel](#)
 - Where: Perfect location at the city center. Bus available to reach the dojo
 - What: Studios for 2 people, and 2 rooms-apartments for 4 people
 - Price: 2 rooms-apartment for 4 people = 230€ by night ; Studio for 2 people = 158€ by night

This is a correct price for Annecy, which is a touristic city
 -  **➤ I have pre-reserved 8x “2 rooms-apartments” for the 3 nights Friday 15, Saturday 16, and Sunday 17. Please contact me quickly in order to use this reservation**
 - This is the accommodation to be preferred if possible
- Some locals will offer accommodation for foreign participants who will have difficulty to pay a hotel.
 - It's hard to say how many accommodation will be available. But worse case, there will always be camping places.

DIFFICULTIES – *UPDATED 2022.01*

- Many different actions have been taken by the authorities in our respective countries. And I know that everything can change quickly, and there will certainly be uncertainties throughout the year.
- However, in most of the country it seems that we get closer to a consensus, which is to have a Sanitary Pass / Covid certificate to practice.
- At that time, every participant with a Sanitary Pass will be able to practice in France. Meaning being vaccinated or having performed a PCR or equivalent test in the last 3 days.
- I hope that it will change until April.
- That is the best moment to apply Philippe's philosophy: "**Never give up!**"
